

Quantum Flex[®] TrimVac[®] Trimmers

The clean, fast and effective way to remove channel debris.

Quantum Flex[®] TrimVac[®] trimmers are a big leap forward in the in-process removal of potentially hazardous spinal cord tissue and other risk material in beef processing.

- New, faster spinning blade gets the job done quicker than ever
- Improved head design increases vacuum pressure
- Effortless to use ... easy to maintain
- Taps into existing vacuum systems – low upfront investment

Down

- Potential product cross-contamination
- Health risks to workers
- Labor costs associated with carcass cleaning

Up

- Product quality control
- Customer satisfaction
- Regulatory compliance
